General and Revenue Secretariat. | 9 File No. 2148 of 1925

Serial No.

In sanctioning grants of various kinds for distres relief measures it is necessary to make the following points clear in every order and in respect of every grant for regulating the accounting and auditing of transactions and for effective financial control over them:-

1) Final charge or recoverable advance.

2) If a final charge, whether it is to be met from any specific grant included in the original Budge for the current year.

3) If a final charge cannot be met as under (2), to state definitely that it should be met from Famine Insurance Fund.

4) If a recoverable advance, whether it is to be met from any specific provision in the original Ways and Means Estimate for the current year.

5) If a recoverable advance cannot be met as under (4), to sanction an additional allotment and stat definitely that the advance should be made out of such allotment.

6) The procedure of sanctioning charges of either kind - final or recoverable - and stating that they should be met from sources to be pointed out later on to be stopped. The question of source should be settled along with that of expenditure itself.

NOTE—Contn. sheet.

Serial No.

7) The practice of sanctioning advances for final charges should not also be permitted.

8) Where losses are apprehended in connection with advance operations a definite time limit to be fixed for taking action for their adjustment. When arrangements like those relating to the supply of fodder free or at less than cost price will be in progress for some months, it is necessary to direct that the resulting loss as it is made should be adjusted at least once in every month. Such adjustments have to be treated as final charges met from Famine Insurance Fund.

2. In the case of works executed for affording employment to famine labour, the general principle of allocation of cost of such works is to treat only that part of the cost as Famine Fund charge which represent the difference between the ordinary cost of such works and the enhanced cost due to the employment of inefficient famine labour, the balance being treated as a charge against ordinary revenue. Our normal revenu Budget has absolutely no margin for any such expenditure and there is no alternative but to meet from the Famine Fund the whole outlay which is final and not recoverable in its nature.

3. As far as possible, existing Budget grants

Serial No.

grants have to be used for this purpose to reduce the draft on the Famine Fund the balance of which is not large and which may not go very far, should unfortunately the conditions of drought continue long.

4. Whether met from original Budget grants or from grants made out of the Famine Fund or from additional allotments made for takkavi loans, it is necessary to keep a comprehensive account of all charges on account of drought relief operations to ascertain the extent of the financial drain due to such operations and the Comptroller may be requested to keep a pro forma account of this kind. Only the part of the drain representing the final outlay met from the Famine Reserve will appear under the head Famine Relief in the accounts and hence the need for the pro forma account suggested.

5. The account suggested in the preceding para is of expenditure from State Funds. If Local Bodie incur any charges on account of relief measures, a similar account may be required to be kept by them, For purposes of administration and of future referer the aggregate outlay from all sources has to be tabu lated and in this tabulation, charges met from Local Funds have also to be included.

6. The orders so far issued may be reviewed with reference to the above suggestions and necessary

4. Establishment -

Details of Establishment sanctioned from time to time specifically for the purpose of relief of distress are furnished in Annexure A to the Statement. Provision for the pay for the month of June 1924 is omitted as it is debitable to the Budget grant of the year 1924-1925.

5. Works in charge of Civil Officers -

(i) Sinking of Temporary Wells :- The Revenue Commissioner has so far sanctioned a sum of Rs. 21,500/- (this includes the cost of Rs. 2,500/- being the expenses in connection with the sinking of a well at Malur under Mr.Stromeyer's direction. Vide Government Order No.430-35/Dis.5-23 dated 26th January 1924) out of the sum of --- Rs. 1,00,000 placed at his disposal in Government Order dated 22nd November 1923.

(ii) Village Improvement Works:- In the absence of information as to what portion of the cost of such works should be borne by Government, only one-third of the aggregate amounts allotted both by Government and by the Revenue Commissioner has been shown as a final charge, the balance being shown under the column "Advances to Ryots in respect of these works towards their share

share of Contribution." Transfers from one head to the other will be made as the particulars are made available in the estimates to be sanctioned.

6. Works in charge of Public Works Officers -

(i) Tank Restoration Works :- The Revenue Commissioner has placed a sum of Rs. 4,875/- for this purpose. As the distribution of the sum of Rs. 10,000/- sanctioned in the Government Order of 7th December 1923 between Tank Maintenance and Tank Restoration Works is not known, one half has been entered under each head.

2. As one-fourth of the cost of restoring Minor Tanks has to be borne by the ryots, three-fourths of this amount is shown as chargeable to Government account, the balance being shown under the column "Loans for Restoration of Minor Tanks". Any alteration in the proportion in consequence of any concessions that may be granted will necessitate transfer from one head to another the amount chargeable to Government being correspondingly increased.

(ii) Tank Maintenance:- Only the sums specifically ordered by Government to be borne by Government have been included under this column, the rest being shown under the column for "Charges by Public Works Officers for Works recoverable from ryots under Tank Maintenance Rules (since July 1918)."

15. Amount placed at the disposal of the Revenue Commissioner in Government Order Nated 22nd November 1923 viz., Rs 1 lakh.

From the information received from the Revenue Commissioner (Annexure B) and the Government Orders sanctioning funds from out of this allotment it is seen that a sum of Rs 82,930/- has already been ordered to be utilised. The source from which the cost of establishment detailed in annexure (A) less Rs 3000/- (being the amount provided for in the Government Order of the 10th January 1924), amounting to Rs 9,509 is to be met has not been in all cases pointed out. If this is to be met from the sum of 1 lakh sanctioned in Government Order dated 22nd November 1923 the balance available will be only Rs 7,561/- and if any portion of the expenditure on Tank Maintenance Works in the Tumkur District referred to in para 6(ii)2 supra is also to be met therefrom the provision of 1 lakh will be exhausted. This has to be kept in view in sanctioning additional expenditure and in sanctioning funds. In future the classification furnished in the statement may be kindly adopted.

Final Charges

Such of the final charges on account of the relief of distress as cannot be met from any source in the current year's Budget will be debited to the respective sub heads under the Major Head 33.Famine Relief. New heads will be opened from time to time as fresh kinds of operations are sanctioned by Government.

But as regards similar final charges for which funds have been or could be found from the provision in the current year's Budget, they will be debited to the respective budget heads and included in the amounts spent thereunder under normal circumstances.

A pro forma account will be maintained in this office to show the extent to which the current year's budget grants have contributed to the relief measures.

In respect of journeys performed on account of distress relief by officers and establishment not specially appointed by Government for this work, the travelling allowance charges will be included in this office pro forma account.

Loans and Advances.

To enable this office to exercise due audit control with reference to allotments, I request that in respect of allotments so far sanctioned by Government or hereafter to be sanctioned their distribution agreeably to the heads of classification given above may be caused to be made and intimated to this office. If Government intend to delegate powers to Heads of particular Departments to transfer funds from one sub head to another allotment by minor heads may be made in such cases.

I have the honor to be,
Sir,
Your most obedient servant,

Comptroller.

The several Government Orders sanctioning certain grants in connection with the relief of distress in the affected parts of the State.

2. Letter No. 80/R.D. dated the 1st February 1934 from the Comptroller to Government reporting that certain heads have been opened in the books of his office for exhibiting the charges incurred in connection with distress relief measures.

3. Letter No. D. 25 of 33-34 dated 9/5th February 1934 from the Revenue Commissioner forwarding a statement showing the grants sanctioned by Government in connection with Distress under various heads, the amount allotted out of the same and the balance available with him.

Order No. 671-730/D.35-23-3

Dated, Bangalore the 7th Mar. 1934.

Government have sanctioned from time to time several grants of various kinds for distress relief measures in the affected parts of the State to be operated upon by the Revenue Commissioner, the Director of Agriculture and the Conservator of Forests. It is necessary to classify these grants so that the accounting and auditing of all expenditures incurred in

be properly regulated. Grants have first to be classified into final charges and recoverable advances and the former classified according to the source from which the expenditure is to be met, whether from the current year's budget grants or from special grants sanctioned from the Famine Insurance Fund. All recoverable advances should be classified to show which of them should be met from specific provisions in the Pay and Allowance estimate for the current year, and which should be met out of special additional allotments. Wherever expenditure is sanctioned from grants made in the current year's budget or out of specific additional grants, such grants should be operated upon first and after they are exhausted lump-sum allotments sanctioned for the purpose should be drawn upon and the balance verified from time to time. In the case of lump-sum grants, comprising of various items, or in cases where it cannot be fixed at the outset as to how much would be advance and how much final charge as in the case of the amounts sanctioned for fodder supply arrangements, the accounts have to be adjusted at the end of every month, advances and final charges being brought under their proper heads. A detailed statement showing the allotments made up to 4th February 1924 classified under the respective heads is annexed hereto. The Officers concerned are requested to bear in mind the instructions laid down above and to forward for verification to the Comptrol-

Comptroller before the 10th of every month an abstract of the expenditure incurred by them during the previous month, properly classified on the lines of this statement.

2. The Comptroller to Government has reported that, with a view to exercise due audit control over the several allotments he has opened in the books of his office the undermentioned heads for exhibiting the charges incurred in connection with Distress Relief:-

Major Head.	Minor Head.
33. Famine Relief.	1. Establishment. 2. Works in charge of Civil Officers. 3. " in charge of Public Work Officers. 4. Loss on Fodder Supply Operations. 5. Gratuitous Relief 6. Miscellaneous.
10.(a) Advance.	32. Departmental Advances 33. Other Advances. (b) Advances to ryots for Village Improvement Works. (c) Fodder Supply Advances.

3. So far Government have sanctioned a sum of Rs. 1,37,287 for final charges and Rs. 4,25,982 for loans and avances in addition to provisions in the Ways and Means Estimate. An abstract of the statement showing the distribution of the above amounts is also appended hereto. Government consider that the above classification is comprehensive enough and direct that the accounts be maintained in accordance therewith, new heads being opened from time to time for fresh kinds of operations arise-

tained in future. The cost of establishment amounting to Rs. 13,502 detailed in Annexure A (less Rs. 3,000 being the amount provided for in the Government Order of 10th January 1934) may be met out of the One Lakh of Rupees sanctioned in G.O. dated 23rd November 1933.

4. Whether met from original Budget grants or from grants made out of the Famine Fund or from additional allotments made for takavi loans, it is necessary to keep a comprehensive account of all charges on account of drought relief operations to ascertain the extent of the total outlay on such operations. The Comptroller is therefore requested to open a pro-forma account to show the aggregate outlay on all distress relief operations, under whatever head it is accounted for and from whatever source it is met.

5. The accounts suggested in the previous paras are in respect of expenditure from State Funds. If Local Bodies, Municipalities and District and Taluk Boards - incur any charges from out of their own funds on account of Distress Relief Measures in their respective areas, a similar account will have to be kept by them. For purposes of administration and of future reference, the aggregate outlay from all the sources on the Relief Operations in the State has to be tabulated and in this tabulation, charges met from

Local Bodies have also to be included. The Presidents of Municipal Councils and District Boards are requested to forward every month to the Comptroller and to the Revenue Commissioner a statement showing the expenditure incurred by them for distress relief, specifying the purpose and the source from which it is met. But the above officers are requested not to mix them up with the expenditure from State Funds, but only add them when reckoning the total expenditure from all sources on account of distress relief measures.
